Diaphragm Pumps

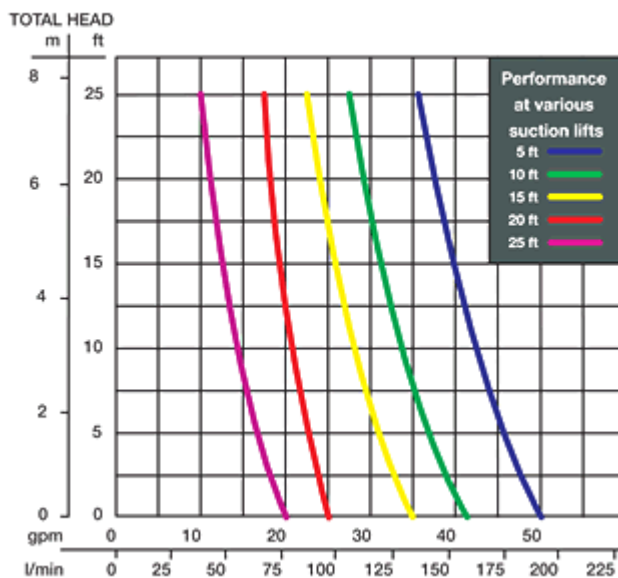

2-inch diaphragm pumps for jobs no other pumps can handle

The PD 2 diaphragm trash pumps can move almost anything that flows. A 2-inch pump that can handle solids up to 1.5 inches (38mm) and up to 50 gpm (189 l/min), these pumps are ideal for moving water with mud, slurries and in seepage areas. Built with high quality component, you will be assured of many years of top performance and durability. Large solid rubber tires provide excellent traction and smooth rolling over rough terrain.

- Aluminum alloy body with heavy-duty pump diaphragm provides a lightweight, low maintenance package that ensures long life.
- Surge chamber on inlet side results in smooth pumping operation by absorbing pressure spikes while reducing wear.
- Oil bath lubricated transmission ensures continuous lubrication to all parts of the gear transmission system, reducing both maintenance costs and lost production time.
- Ductile iron crankcase provides maximum durability. Hardened forged gears extend pump life and provide efficient power transmission from the engine to the pump.
- Straight through water flow design provides high production pumping capacity and less down time blockages.

Technical specifications

	PDT 2	PDT 2A
Dimensions		
L x W x H in	39.2 x 22.2 x 23.2	39.2 x 22.2 x 23.2
L x W x H Shipping in	33 x 32 x 31.5	33 x 32 x 31.5
Diameter Suction and Discharge in	2	2
Operating weight lb	131	131
Shipping weight lb	166	166
Operating data		
Discharge Head ft	25	25
Discharge capacity US gpm	50	50
Solids diameter Max. Size in	1.5	1.5
Engine / Motor		
Engine / Motor type	Air Cooled, Single Cylinder	Air Cooled, Single Cylinder
Engine / Motor manufacturer	Wacker Neuson	Honda
Engine / Motor	WM130	GX120K1QX
Displacement in ³	7.7	7.2
RPM / speed Max. Engine rpm	4,000	3,600
RPM / speed Operating rpm	2,800	2,800
Power Max. Rated hp	4.3	3.5
Power Rating Specification	SAE J1349	SAE J1349
Engine oil US qt	0.65	0.65
Fuel type	Gasoline	Gasoline
Fuel consumption US gal/h	0.3	0.3
Tank capacity Fuel US qt	2.9	2.6
Runtime h	2.5	2.2
