FOR MEDIUM TO LARGE SIZE SCRUBBING JOBS

The perfect size for medium to large size scrubbing jobs, the Predator 20 will clean through 20,000 square feet per hour with a 20 inch cleaning path that fits easily through doorways and into tight spaces. This self-propelled model with direct drive features electronic motion control going both forward and backwards. Thick slurry is no match for the 3 stage suction motor that vacuums up the waste much easier than most automatic scrubbers. Maintenance is made simpler with easy access to batteries, vacuum motors and tanks, and with lifetime lubrication on the differential motor. The Predator 20 battery operated scrubber provides a run time of up to 4 hours for continuous scrubbing power.

Simple access to batteries, vacuum motors and tanks

Independent dual wheel traverse motor drive. Differential drive motor with lifetime lubrication

Easy access for brush removal

Solution control located at finger tips. Brush and squeegee lower with foot pedals
